

## **PUBLIC WORKS REPORT**

Submitted by Anthony Huerta

This month Leslie Pools will be installing a new chlorinating system to update the old one at the pool and to cut the costs of daily operation and maintenance. They will also include training of use of the equipment that's to be installed. This is thanks to ASARCO for helping the Town of Superior. They are sending Superior a check in the full amount to install all of the new equipment. Actually, Public Works just received notification; the new equipment will be installed on Wednesday, March 19<sup>th</sup>.

The Church of Latter Day Saints youth from some of the Mesa Stakes will be working on the cemetery on March 21, 2014 to help clean up and update needed maintenance in various areas throughout. They are also paying the costs of any paint or supplies, and are providing any tools that will be needed. Public Works wants to give the LDS youth a big thank you and also the Town of Superior appreciates the help. The cemetery is important to this community.

Public Works have continued working on cleaning the streets, parks, and restrooms. The plans to get the Town Hall restrooms fixed are still in the schedule, as time permits to get this done as soon as possible.

Public Works has also acquired additional equipment for the shop and streets crew at no cost to the Town, due to scrap metal being turned in to pay for the equipment and cover the costs.
